

COVER YOUR WORLD

International Health Insurance for Maritime Crew and Employers

For the past 20 years, GeoBlue has been dedicated to simplifying the international healthcare experience for the globally mobile. Our specialized plans for maritime crew and employers provide comprehensive worldwide benefits—inside and outside the U.S.—without the typical limits, eligibility conditions and benefit exclusions common among traditional plans. This, combined with access to our hand-picked network of high-quality medical providers outside the U.S., the strongest network in the U.S., leading-edge technology and 24/7 world-class medical assistance, gives crews confidence that quality care can be accessed wherever their voyages take them. Our ACA-style plans are available for U.S. and foreign-flagged vehicles.

The Blue Difference

Elite Provider Community

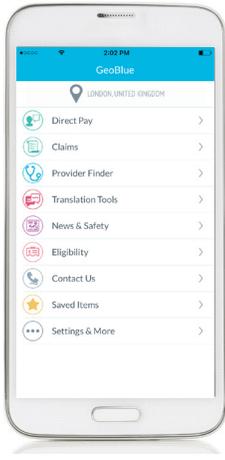

We have an elite network of doctors from most every specialty ready to see you in over 180 countries. Only a small fraction of doctors around the world meet GeoBlue's exacting standards — participation is by invitation only. These providers are highly regarded by their peers, speak fluent English, understand the local resources and expat expectations, possess accreditations and board certifications from the American Board of Medical Specialties & Medical Royal Colleges and will see GeoBlue members on short notice.

For members choosing a GeoBlue plan that offers benefits in the United States, you gain access to the largest national network and facilities that have been awarded the coveted Blue Distinction for superior medical outcomes. In the U.S., more than 92 percent of physicians and 96 percent of hospitals contract directly with Blue Cross and Blue Shield Plans.

Simpler, Better Access to Care

GeoBlue is committed to helping you access quality healthcare wherever you are in the world, quickly and easily.

- No waiting periods for any benefit including preventative/wellness care and mental health
- Primary to P&I
- Available for U.S. and foreign-flagged vessels
- Contracted providers bill GeoBlue directly, eliminating paperwork and out-of-pocket expenses for you

High Tech, High Touch Service

From the outset, GeoBlue has focused on combining technology with exemplary service to make crew member and plan administrator's lives simpler.

Our multi-lingual customer service team is available 24/7/365 to assist members with finding providers, accessing care, and addressing health concerns. When a medical condition is ongoing, GeoBlue offers specially selected resources for cancer, heart disease, sports injuries, behavioral conditions and maternity. When the condition is familiar, but the surroundings are not, enlist GeoBlue to line up the best local resources.

This combines with sophisticated mobile and digital tools to keep members and administrators in control. GeoBlue mobile tools make it easy to use online databases or downloadable applications to find a doctor or hospital, communicate your medical needs and understand the treatment plan. Start by using authoritative tools to help decide whether to seek treatment at an emergency room, schedule a doctor visit or employ remedies at home. If treatment is necessary, quickly identify the best, most convenient options using all the power of GeoBlue's global provider community, translation tools and location-based technology.

GeoBlue Benefit Schedule

GeoBlue offers 3 standard plan designs outlined below. All plans have an unlimited lifetime medical maximum with a \$100,000 benefit for emergency medical evacuations.
